

15 Day Kimberley Horizon Expedition Cruise: Broome to Darwin

Broome - Darwin - Wyndham

From **\$19,000**

****BONUS NIGHT in Broome and Darwin****

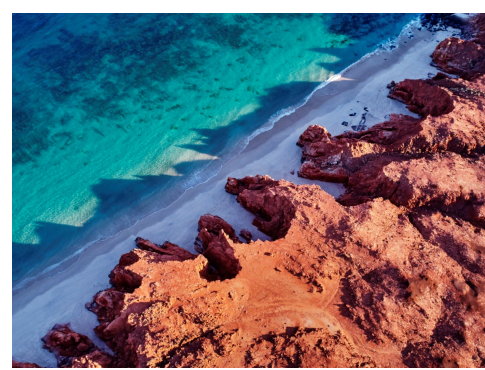

Cruise in luxury through the heart of Australia's Kimberley region

Witness gushing waterfalls and the amazing Horizontal Falls

Spot crocs sunbaking along mangrove-lined rivers & learn more about this incredible area from on-board experts

Enjoy 24-hour room service, meals, drinks, plus a range of daily excursions

Description

Discover ancient landscapes on this exceptional 11-day voyage exploring the Kimberley, Western Australia's most sparsely settled northern region. Your journey around this precious coastal wilderness is defined by azure blue seas, tiny islands, fjordlands and extraordinary high tides. Inland, Aboriginal art daubs towering sandstone cliffs and caves, while the scraggy eucalypt savannah is home to crocodiles and rock wallabies. Get your camera ready as we sail through humpback whale calving grounds, as boobies, egrets and Eastern ospreys take to the skies. With some areas only accessible by sea, cruising this revered land on this luxury, boutique ship will leave lasting memories.

Plus, treat yourself to included stays in Broome and Darwin before and after the cruise to really take in the sights and sounds of this incredible region.

Itinerary

Day 1

Broome

Welcome to Broome! You can arrive anytime today and you are free to explore the many interesting sites of this town.

Day 2

Broome

Free day to continue exploring Broome.

Day 3

Broome

 Today you will board the SH Minerva.

Sitting between the red desert and azure blue sea, the modern town of Broome is trimmed with white beaches. A draw for pearl fishing, divers once combed the coast for the riches of quality pearls. Visit Chinatown, established by early pearl traders, and shop for pearl jewellery. As well as soaking up the vibrant colours of the landscape, look out for osprey nesting on the pier or visit Gantheaume Point where, at low tide, the beach's red rocks reveal dinosaur tracks.

Day 4

Lacepede Islands

Watch the scenery change as we head to the sandy coastal Lacepede Islands. Here seabirds and marine life abound including eagle rays. Keep an eye out for humpback whales as they migrate from Antarctica to the Western Australian coast where they calve in the warm waters and feed on zooplankton. Brown boobies - large seabirds from the gannet family - dive for fish and nest on the low sand atoll islands, while lesser frigate birds are a common sight.

Day 5

Talbot Bay and Horizontal Falls

One of the great wonders of the natural world, the Horizontal Waterfalls are a phenomenon created by massive tidal movements of up to 10 metres difference between high and low tides on the huge Montgomery Reef, Australia's largest inshore reef in Talbot Bay. These turning tides form a rushing waterfall effect between the water banks, best seen on a fast boat as you zoom through. Or spot rock wallabies perching on rocky outcrops along Cyclone Creek on a zodiac excursion.

Day 6

Montgomery Reef and Raft Point

The dazzling turquoise-coloured Montgomery Reef is part of Camden Sound Marine Park. At low tide, the zodiacs navigate deep channels to witness gushing waterfalls, while egrets and other birds search for exposed shellfish. Accessible by boat, Freshwater Cove, also known as Wiggigarra Butt Butt, lies on the mainland next to Montgomery Reef. Members of the Worrorra tribe often greet visitors who land on this white sandy beach with a welcome ceremony, smudging ochre on each person's cheek. From the beach, a 40-minute uphill walk over rocky terrain takes us to a Wandjina aboriginal rock art gallery where locals sell their work.

Day 7

Bigge Island and Low Rocks

The main attraction on Bigge Island is the ancient aboriginal art on the cliffs and in caves around Wary Bay depicting Wandjina figures, symbols of fertility and rain. An easy coastal walk on sand trails and through mangroves gets us to these painted images with their large, round eyes and halos around their heads. As we land on the beach, you might see the tracks of sea turtles who come to lay eggs in the low sand dunes.

Day 8

Ashmore Reef

Ashmore Reef Marine Park is a protected aquatic sanctuary in the uninhabited, Australian External Territory of Ashmore and Cartier Islands of Australia some 630 km north of Broome. With the greatest number of species of reef coral in Western Australia, the intact Ashmore Reef is the ideal haven for us to take out the Zodiacs to snorkel, swim and spot 100,000 breeding seabirds, turtles and the unusual dugongs among the brightly coloured corals, sponges and seagrass.

Day 9

Hunter River and Mitchell Falls

One of the most scenic sections of the Kimberley coast, the Hunter River flows into Prince Frederick Harbour. The backdrop of orange-brown sandstone cliffs and scraggy eucalypt savannah makes this a stunning wilderness experience. Take the zodiac along Porosus Creek watching out for salt-water crocodiles (*crocodylus porosus*) that give their name to these waters. Or head north to the mighty four-tiered Mitchell Falls on the chopper. Sit back on deck to watch the magnificent Kimberley sunrise or sunset.

Day 10

King George River

Heading along the King George River towards King George Falls is one of the highlights of our Kimberley cruise. The river weaves past mangrove forests and towering sandstone cliffs that become more spectacular the further we go. Watch for crocodiles basking, or spot elusive birds such as Eastern ospreys, oystercatchers, peregrine falcons and terns. Near the falls, the zodiacs try to make land and keen hikers can climb to the top for panoramic views back down river.

Day 11

Wyndham

The 'Aussie Outback' at its finest, Wyndham is one of Australia's most remote outback towns and the most northerly in the Kimberley. Given their rugged existence, the small population of locals are considered 'colourful.' Huge saltwater crocodiles laze on the mudflats as the tide goes out, and you often see endangered, rainbow-coloured Gouldian finches around town. Visit the 'big crocodile' statue, the Bastion viewpoint overlooking five rivers flowing into the Gulf, or head out to the unusual rockform Bungle Bungles.

Day 12

At Sea

Sea days are rarely dull. Take the time to sit back and let the world go by. The ship's observation decks provide stunning views of the passing ocean. A day at sea gives you the opportunity to mingle with other passengers and share your experiences of this incredible trip or head to our library which is stocked full of reference books. Get an expert's view in one of our on-board lectures or perhaps perfect your photography skills with invaluable advice from our onboard professional photographers.

Day 13

Darwin

The coastal port and gateway to Australia's Northern Territory, Darwin is best known for its parks and gardens. Learn to identify regional flora, tropical plants and orchids at the George Brown Darwin Botanic Gardens. Discover Aboriginal Art at the Museum and Art Gallery of the Northern Territory, or take a stroll through Old Darwin, past buildings that chart the city's history from the days when Charles Darwin's HMS Beagle first visited Darwin harbour in 1839.

Day 14

Darwin

The day is yours to explore Darwin!

Day 15

Darwin

Free day to continue exploring Darwin. You can fly out anytime today.

Inclusions & Exclusions

Inclusions

- 2 nights 4 Star accommodation in Broome
- 10-night Kimberley Cruise in an Ocean View Cabin - Swan Hellenic MS Minerva
- 2 nights 4 star accommodation in Darwin
- All Meals onboard
